

As a user, I want to be able to view the train's route map, so that I can plan my trip and know where the train will be passing through. Acceptance criteria: The train route map is displayed clearly and accurately. Users can easily zoom in and out of the map to view the train's entire route and individual stations. The map includes information about major landmarks, cities, and attractions along the route. The map is updated regularly to reflect any changes in the train's route or schedule.
