

As a user, I want to be able to view the train's speed and duration of the journey, so that I can plan my travel itinerary accordingly. Acceptance Criteria: The train's speed and duration of the journey are clearly displayed for each trip. Users are able to view the estimated duration of the journey for each stop along the route. The displayed information is accurate and up-to-date. Users are able to plan their travel itinerary based on the estimated duration of the journey.
